A RESOLUTION OF THE WASHINGTON STATE LIQUOR CONTROL BOARD RECOGNIZING THE CITY OF TACOMA'S PROPOSED UPDATE AND CONSOLIDATION OF BANNED PRODUCTS LIST

Whereas, the Board recognizes its statutory mandate to protect the public's welfare, health, peace, and safety, and its responsibility to work with communities to help mitigate negative impact of chronic public inebriation associated with the sale of alcohol by the businesses it regulates.

Whereas, in recognition of this mandate, in 1999, the Liquor Control Board adopted the Alcohol Impact Area rules, Washington Administrative Code (WAC) 314-12-210 through WAC 314-12-225. These rules establish a framework for the Liquor Control Board, working in partnership with local government and community organizations, to mitigate the negative impacts that result from the presence of chronic public inebriation. Preventing and reducing the harm caused by untenable alcohol consumption requires a comprehensive, multi-dimensional response by neighborhood residents, businesses, and government agencies, including coordinated treatment services, health care, housing services and vocational training. Mandatory restrictions on alcohol sales imposed by the Board are a key element in the effort to mitigate the negative impacts of chronic public inebriation.

Whereas, WAC 314-12-215 sets forth the requirements that the government subdivision must satisfy in order for the Liquor Control Board to recognize the proposed Alcohol Impact Areas.

Whereas, the city of Tacoma's request meets the requirements for Board recognition, as outlined in WAC 314-12-215 includes findings of fact pertaining to the presence of chronic public inebriation. Data submitted by the city of Tacoma finds that crime statistics, police reports, emergency response data, sanitation reports, and public health records demonstrate that chronic public inebriation and illegal activity associated with alcohol sales and consumption within the Downtown Core and the Lincoln District continue to contribute to the deterioration of the general quality of life within these areas.

Whereas, the City of Tacoma requests that the Liquor Control Board impose mandatory restrictions on the off-premises sale of alcohol by licensees in the Downtown Core and Lincoln District Alcohol Impact Areas. Specifically, the city requests no sales of certain low cost/high alcohol content beer and wine products identified by a banned products list. This request modifies Board recognition of the Downtown Core adopted December 12, 2001 and all subsequent amendments, and modifies Board recognition of the Lincoln District adopted July 16, 2008 and all subsequent amendments.

Whereas, in reaching our decision, the Board has duly considered the city of Tacoma's April 30, 2009 request to consolidate and update the Banned Products List, written comments received from stakeholders and the public regarding Tacoma's request, and LCB staff presentation at a public work session August 19, 2009.

Now therefore, be it resolved,

Section 1 The Board resolves to impose the following mandatory restrictions requested by the city of Tacoma, to take effect October 15, 2009.

No sales of the following beer and wine products listed. All flavors, alcohol content, and container sizes of the following named products are hereby banned from off-premise sale by licensees in the Downtown Core and Lincoln District Alcohol Impact Areas.

The Board resolves that these restrictions are reasonably related to addressing the problem of chronic public inebriation demonstrated to exist within the defined Alcohol Impact Areas.

The Board further resolves that such restrictions are a reasonable control measure aimed at mitigating the negative effects of chronic public inebriation, and are necessary to augment the city of Tacoma's efforts to address such problems within the defined Alcohol Impact Areas.

Section 4 The city of Tacoma shall submit annual updates of data demonstrating how the restrictions imposed by this resolution have mitigated the negative impacts associated with chronic public inebriation within the recognized Alcohol Impact Areas. The first report for the Lincoln District to the Director of the Board's Licensing and Regulation Division is due by September 30, 2009.
